SUMMARY

Computer Science Engineer specializing in Software Quality Assurance, DevOps, and Full Stack Development. Experienced in building automated test frameworks with Python and Selenium, maintaining Jenkins CI/CD pipelines, and supporting containerized deployments on AWS and Azure using Docker and Kubernetes. Strong foundation in SQL, and data analysis (NumPy, Pandas), committed to delivering efficient, reliable, production-ready software in Agile environments.

PROFESSIONAL EXPERIENCE

Conqudel Pte. Ltd.

Associate Software Engineer — QA & DevOps

Jun 2026 – Present

On-site

- Developed and executed automated **Python/Selenium** test scripts to validate web application functionality, reducing manual testing effort.
- Performed **API testing** and validation using **Postman**, ensuring reliable, consistent backend services across releases.
- Assisted in designing and maintaining **Jenkins CI/CD pipelines**, automating build, test, and deployment stages to speed delivery.
- Containerized applications with **Docker** and supported **Kubernetes** orchestration, improving deployment consistency.
- Supported cloud deployment and infrastructure management on **AWS** and **Microsoft Azure** for cloud-native delivery.
- Identified, tracked, and resolved software defects in **Jira**, partnering with developers to drive timely, quality fixes.
- Executed **functional, regression, and smoke testing** cycles, strengthening software quality and release stability.
- Contributed to **Agile ceremonies** — sprint planning, daily stand-ups, and retrospectives — aligning QA with dev goals.
- Documented **test cases, bug reports, and deployment procedures**, improving team collaboration and knowledge sharing.

PySpiders Software Testing & Development Center

Python with Data Science Intern

Apr 2026 – Jun 2026

Noida, Uttar Pradesh, India

- Built data analysis and preprocessing workflows using **Python, Pandas, NumPy**, and **SQL**.
- Performed **exploratory data analysis (EDA)** and created visualizations using **Seaborn** to identify trends and patterns in datasets.
- Created **Power BI** dashboards and reports to present data insights and support business intelligence analysis.

TECHNICAL SKILLS

Languages: Python, SQL

Testing & QA: Selenium, Postman, API Testing, Functional Testing, Regression Testing, Smoke Testing

DevOps & Cloud: Jenkins, CI/CD, Docker, Kubernetes, AWS, Microsoft Azure

Data Analysis: NumPy, Pandas, Matplotlib, Data Manipulation

Developer Tools: Git, GitHub, VS Code, Jira, Postman

Core Concepts: STLC, Agile/Scrum

PROJECTS

Python QA Automation & CI/CD Testing Framework — UI + API (TestPulse)

[GitHub Repo](#)

- Built a test automation framework in **Python** using **Pytest** and **Playwright**, covering 12 UI test scenarios (authentication, product listing and sorting, shopping cart) and 6 **REST API** tests validating status codes, response schema and data types.
- Designed the framework around the **Page Object Model** with shared Pytest fixtures, separating locators and page actions from test logic to reduce duplication and simplify maintenance.
- Implemented **HTML test reporting** with pytest-html, including an automatic **screenshot-on-failure** hook that embeds the browser state into the report for faster debugging.
- Set up a **GitHub Actions CI** pipeline that installs dependencies and browsers, executes the full suite on every push and pull request, and publishes the report as a build artifact; containerized the suite with **Docker** for consistent execution across environments.
- Tech Stack: Python · Pytest · Playwright · requests · pytest-html · python-dotenv · Git/GitHub · GitHub Actions · Docker*

EDUCATION

RTC Institute of Technology

B.Tech in Computer Science and Engineering

May 2022 – May 2026

Ranchi, Jharkhand

LND College, Motihari

Higher Secondary (Class XII)

Score: 72%

Motihari, Bihar

Bihar School Examination Board (BSEB), Patna

Secondary (Class X)

Score: 83%

Patna, Bihar

CERTIFICATIONS

Google Cloud Arcade Program — Champion Tier | Google Cloud Skills Boost

[Show Credential](#)

- Earned the **Champion Tier** (highest recognition level) by completing hands-on Google Cloud labs and Arcade challenges.

ACHIEVEMENTS

- Attained **Champion Tier**, the top level of the Google Cloud Arcade Program by Google Cloud Skills Boost.
